CEI Evaluation 07/20/2011 Activity Location: FL By: STATE Identifier: CEI Person: MDW Suborganization: NW Found Violation: YES

NOC Date: Citizen Complaint: NO Multimedia Inspection: NO Sampling: NO Not Subtitle C: NO Day Zero: 07/20/2011 Focus Area:

Eval. Notes: The purpose of this inspection was to ensure compliance with state and federal hazardous waste and used oil regulations. This location, formerly occupied by Jim Barton's Automotive, was last inspected by the Department for this purpose in 2003. Brown's Auto Repair (BAR) has been at this location for 2 to 3 years and has three employees. The property is owned by Boyd Brothers, Inc. | BAR is a general automotive repair shop and generates used oil, used oil filters, spent parts washing solvent (diesel), aerosol cans, mop water and spent batteries. Used oil is stored in 55-gallon drums inside the shop. Used oil filters and empty aerosol cans are disposed of with the regular trash. Spent diesel and mop water are put into the used oil which is picked up by Georgia Petroleum, Inc. (GAD981222433). Used batteries are returned to the supplier for core charge. | BAR and Boyd need to address the potential violations and area of concern above and respond to the Department in writing within 21 days. | Okay. | Submitted for approval by Woehle, Melissa

Violation Activity Location: FL Type: XXS Determined Date: 07/20/2011 Determined By Agency: STATE Responsible Agency: STATE
Scheduled Compliance Date: Actual Compliance Date: 08/16/2011 RTC Qualifier: UNVERIFIABLE Sequence Number: 1

Citation Info:	Seq #	Type	Citation	Notes
	46784	SR	62-710.401(6)	At the time of this inspection, BAR had two 55-gallon
Former Citation:62-710.401(6)				

Viol. Notes: At the time of this inspection, BAR had two 55-gallon drums labeled "Used Oil" inside the shop. The drums were in good condition, but did not have required secondary containment. BAR also had two used oil transfer containers. | As stated in Chapter 62-7110.401(6), "No person may store used oil in tanks or containers unless they are clearly labeled with the words "used oil" and are in good condition (no severe rusting, apparent structural defects or deterioration) with no visible oil leakage. If tanks or containers are not stored inside a structure, the contents shall be closed, covered or otherwise protected from the weather. If tanks or containers are not double-walled, they shall be stored on an oil-impermeable surface such as sealed concrete or asphalt, and must have secondary containment which has the capacity to hold 110% of the volume of the largest tank or container within the containment area. BAR needs to ensure compliance with the citation above with regard to all used oil storage containers. Used oil transfer containers do not need secondary containment as long as they are emptied daily.

Enforcement:	Activity Location: FL	Type: 123	Action Date: 08/12/2011	Identifier: 123
	Docket:	Agency: STATE	Responsible Person: MDW	Suborganization: NW
CA Component: N	FA Requirement:	Disposition Status:	Appeal Initiated:	Appeal Resolved:

Note: Penalty information associated with an enforcement action is reported with the enforcement action. For enforcement actions associated with multiple violations, the penalty information will be reported with each violation, however, the penalty is only assessed once, regardless of the number of violations associated with the enforcement.
